

Afghanistan–Pakistan Conflict

ATLAS ANALYTICA

Incultivating empathy through awareness

Afghanistan–Pakistan Conflict

GEOPOLITICS • September 2026

An analytical overview of the evolving relationship between Afghanistan and Pakistan, examining the security, political and regional factors shaping the conflict.

This is a temporary preview PDF created for the Atlas Analytica website prototype. Replace the corresponding file in the articles folder with the final article PDF and the website viewer will automatically display it.

Editorial notes

- The final article can contain the full research, references, graphics and photographs.
- The Atlas Analytica viewer is designed to preserve the PDF as the primary publication format.
- Readers can move between pages using the horizontal sliding controls.
